Priority matrix

How it works

1

To get started, jot down all the tasks and projects you want or need to get done.

2

Rate the activities based on their importance and urgency. You can rate them on a scale from 1-4 or use a scale of your choice, e.g. school grades or a 1-10 scale.

3

Now it's time to add the items to the matrix. Try to limit each quadrant to eight items, to keep it achievable. Remember the goal here is accomplishment!
